

GROUPER

classic and modern pop & rock ...

▾ Grouper Sound & Light System Technical Specifications

GROUPER carry their own high quality PA system, which is suitable for most venues up to a capacity of 150 people. Should a larger system be required the band will happily arrange this and can obtain a very competitive price from their suppliers due to the large number of gigs they play each year.

This option is often attractive to corporate clients who may prefer to leave arranging some of the technical setup to the band. GROUPER also supply basic stage lighting and can arrange more elaborate systems if required.

The band have developed a close working relationship with the Alive Network team and always strive to cater for the specific requirements of every event.

We carry a 1.5Kw P.A. system consisting of:

- 2 x Full-range ported cabinets (1x15" and horn).
- 2 x 600w Mosfet Power Amplifier.
- Mackie 600w Sub Bass
- Soundcraft Spirit Folio SX 20 input Mixing Desk.
- Heavy Duty Stands.
- 200w Monitor system.
- Shure SM58 microphones.
- Alesis Digital Reverb.
- Stage Lighting
- CD player
